**JOURNAL TIME:**

Write these answers in your journal

How would you describe your awareness of your own parts, fragments?  
(Think about names, ages, desires)

Do you have any addictions that you feel may be because of fragmentation?

Can you identify any of the types of parts mentioned in the lesson?  
(Do you know the root cause of their fragmentation?)

Do you have others that are different types?

Have you ever experienced BAD deliverance?

Were any of your parts traumatised by deliverance ministers?

Make a little table in your journal like this and fill it in. You may not be able to link the two columns yet but if you can, great. If not, don't worry about it.
